This is secured. If you fail to meet your commitments under the loan agreement then to the extent of the security interest, the lender may be entitled to repossess and sell this collateral and/or land

Description of security interest

Property which is or will be subject to a security interest

Personal Property**Collateral**

All normally at

Together with any replacements.

The security interest in the collateral is as defined in section 17 of the Personal Property Securities Act 1999 and it secures payment of all the unpaid balance and performance of all your obligations under this loan agreement to the extent of the value of the collateral.

If we sell the collateral in the event of default after we repossess it, and the net proceeds are not enough to repay what you owe us (the unpaid balance), you will owe us the difference. We may recover that amount from you.

The collateral is also security for all other things you have agreed to do as well as pay. You may not give security over the collateral to anyone else and, if you do, you will be in breach of this loan agreement and we may repossess and sell the collateral.

Real Property – Land to be Mortgaged.

Legal Description

CT or Document

The security interest is an all obligations mortgage of land and it secures payment of all the unpaid balance. It also secures the performance of all your obligations under the loan agreement to the extent of the value of your interest in the land.

If we sell the land in the event of default and the net proceeds are not enough to repay what you owe us (the unpaid balance), you will owe us the difference.

You may not give security over the land (for example grant another mortgage) to anyone else without our written consent and, if you do, you will be in breach of this loan agreement, and the land may be sold by the lender.

Default interest charges

In the event of a default in payment and while the default continues you must pay the default interest charges. In the event of a breach of the loan agreement or on the enforcement of the loan agreement, the default fees specified below are payable. The loan agreement may allow the creditor to vary these fees and charges.

Default interest is 10 % per annum, when charged on any overdue instalment or overdue amount other than the unpaid balance before payment of the unpaid balance has been accelerated (called up early). Default interest is charged from the time that you fall into financial default until you are no longer in financial default. It is calculated by multiplying the overdue instalment or overdue amount by the daily default interest rate. The daily default interest rate is calculated by dividing the annual default interest rate by 365. Default interest is charged to your account each payment period.

If the lender accelerates payment of the unpaid balance or the unpaid balance falls due at the end of the loan term, and you do not pay, the default interest rate will be 8 % per annum charged on the unpaid balance from when the unpaid balance is called up or otherwise becomes due until you repay it in full.
